

Transcat Hand Pump Calibrators

22988P

Pump shown
without gauges

Transcat Brand

Transcat offers two hand pump pressure calibration kits. There are both single and four gauge kits in either PSI or Inches H₂O. The four gauge 22990P kits include four gauges, and all of the accessories need-

ed to perform most pressure calibrations. The 22992P single gauge sets allow you to choose from the most popular low pressure ranges. See the Ordering Information for the pressure ranges included with each kit.

Each 22990P Kit

Includes:

1. Hand Pump (22988P)
2. Four Gauges
3. Quick Connect Fittings
(1 Male/4 Female)
4. Pressure Tubing
5. Carrying Case
6. Instructions

Each 22992P Includes:

1. Choice of Gauge
2. Quick Connect Fittings
(1 Male/1 Female:6106P/6107P)
3. Pressure Tubing
4. Hand Pump (22988P)
5. Instructions

Note: The Pump for this kit now includes a vernier adjustment.
