

**EconoTemp™ 32311 digital thermocouple thermometer**

**93230 Combo Kit -**  
 Includes:  
 32311 EconoTemp™  
 50336 DuraNeedle Probe

**Features & Specifications**

Accuracy	±2F° (±1C°)
Temperature Range	-40 to 500°F (-40 to 260°C)
Resolution	1°
Battery Type/Life	(3) AAA / 4500 Hours
Warranty	5 years
Housing	Shock resistant ABS with rubber boot
Compliances	CE Marking NSF Listing
Extra Features	Uses any Type K Thermocouples

**Virtually no Recalibration Needed**

The EconoTemp™ features a powerful microprocessor delivering accuracy and reliability with non-volatile memory that stores the calibration setting and will virtually never need recalibration.
