

ExStik[®] Flat Surface Electrodes

Rugged, flat surface electrode provides "On-the-Spot" measurements with an ExStik[®] meter
Ideal for direct contact applications such as food, paper, cement and wet surface

Features:

- Flat surface electrode allows "On-the-Spot" measurements whether the sample is liquid, semi-solid or solid
- Chlorine and pH electrodes have built-in temperature sensor
- Chlorine electrode does not require a reference solution and also does not have a shelf life
- Flat surface design provides a rigid structure that is difficult to damage, but easy to clean

ExStik[®] pH, Chlorine, and ORP Electrodes are to be used with ExStik[®] meters only
