L4 1830 LED

The L4 1830 is a handy, unbelievably bright LED light that's powered by 3 AAAA alkaline cells (included). The light weight, slim profile design fits neatly in your pocket and comfortably in your hand. A push button tail switch provides quick on/off or momentary activation. The clip is virtually unbreakable because it is moulded to the Xenoy body as one unit. And because it is moulded out of polycarbonate resin, it won't cause sparks and is safe to use in electrical environments. Certified to ATEX safe for use in hazardous Zone 1 (Category 2) environments.

 
Black Yellow
Available

**Minimum Pack 6 ea.
Packaged Weight: 1.2 oz.**
