

Part No.

# QTHR-QT-15m

Quick-test Hose Reel with 15 meter Quick-test hose, brass hose ends

The Quick-test hose reel is an innovative solution for storing Ralston Quick-test hoses. It includes inlet and outlet ports, a brake and locking pin and multiple mounting options.

QTHR-QT-15m

## Included Items

- Hose Reel - Quick-test Hose Reel without hose (QTHR-0000)
- Hose - Quick-test 6900 psi hose, brass hose ends, 15m long (QTQT-HOS-15m-NR)

## Specs/Attributes

|            |                                                                        |
|------------|------------------------------------------------------------------------|
| Weight     | 5.83 lbs / 2.64 kg                                                     |
| Dimensions | H: 590.55 in (1,500 cm) x W: 6.5 in (16.51 cm) x D: 11.5 in (29.21 cm) |

## Hose Reel QTHR-0000

|                           |                                                                                                                                                                                                                           |
|---------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Max Pressure              | 6900 PSI / 475 bar / 48 MPa                                                                                                                                                                                               |
| Max Operating Temperature | 140 °F / 60 °C                                                                                                                                                                                                            |
| Materials                 | Anodized Aluminum, Brass, Powder Coated Steel, Stainless Steel                                                                                                                                                            |
| Media Compatibility       | Air, Alcohol, Antifreeze, Ethylene Glycol, Hydraulic Oil, Inert Gas, Mineral Oil, Natural Gas, Petroleum Based Oil, Skydrol, Windshield washer fluid, Transmission fluid, Light motor oil, Ralston Calibration Oil, Water |
| Min Operating Temperature | -40 °F / -40 °C                                                                                                                                                                                                           |
| Weight                    | 5.08 lbs / 2.30 kg                                                                                                                                                                                                        |
| Dimensions                | H: 9.5 in (24.13 cm) x W: 6.5 in (16.51 cm) x D: 11.5 in (29.21 cm)                                                                                                                                                       |

## Hose QTQT-HOS-15m-NR

|                           |                                                         |
|---------------------------|---------------------------------------------------------|
| Burst Pressure            | 27000 PSI / 1860 bar / 185 MPa                          |
| Color                     | Silver                                                  |
| Country of origin         | USA                                                     |
| Fluid Media               | Air, Inert Gas, Natural Gas, Petroleum Based Oil, Water |
| Hose Length               | 15 m / 49.21 ft                                         |
| Inner Diameter            | 0.08 In / 3.00 mm                                       |
| Length                    | 10 m / 32 ft 10 in                                      |
