

VITREK

4700 SERIES HIGH VOLTAGE METER

Precision You Can Trust — Recalibration On Us!

**Order a Vitrek 4700 and get
2026 Recalibration for Free!
A \$1,000+ Value! Only until Oct 1, '25.**

Achieve $\pm 0.03\%$ Accuracy up to 10kV — Reliably, Repeatably.

The 4700 delivers metrology-grade accuracy for high-voltage applications, with direct measurement capability with $\pm 0.03\%$ accuracy. Extendable to 140 kV using Vitrek's HV SmartProbes, the system maintains traceable accuracy across its entire range.

Advanced DSP architecture ensures superior AC/DC accuracy, resolution, repeatability, and long-term stability. The intuitive color touchscreen simplifies setup and real-time data review.

A modern alternative to reference dividers, the 4700 offers immediate, direct readings in a compact, rugged benchtop form factor—ideal for calibration labs, R&D, and high-voltage production testing.

For a limited time, all new units include a free recalibration in 2026—ensuring long-term confidence in measurement accuracy.

ISO 17025 Accredited Calibration Testing

Every Vitrek 4700 High Voltage Meter comes standard with ISO 17025 Accredited Calibration. As part of this limited-time offer, you'll also receive a complimentary 2026 Recalibration Voucher — included in the box with your meter.

This voucher entitles you to one free ISO 17025 recalibration by Vitrek in 2026.

This is a limited time offer. Orders must be placed through our distributor partner between July 1, 2025 and October 1, 2025. Certificate must be redeemed by December 31, 2026. Offer only applies to orders for model 4700 HV meter and does not include calibration for probes. This certificate cannot be combined with any other promotion or discount.

Void where prohibited. Manufacturer reserves the right to modify or cancel this promotion at any time, without prior notice.
