

PRESS RELEASE

December 23, 2025

AEMC® Instruments Introduces the **NEW** Point-to-Point Continuity Tester Model CA 6011

Testing Grounded Pathways and Connections over Long Distances

The Model CA 6011 Continuity Tester is a unique **wrist-worn point-to-point testing meter** designed to **quickly verify continuity across large interconnected systems**. Built for speed and repeatability, it takes the guesswork out of testing so you can move through even large systems with ease and confidence.

Its 200 mA output, automatic polarity reversal, and precision **continuity probe (available in the Testing Kit)**, ensures accurate confirmation of **conductive paths even in hard-to-reach places**. It easily verifies lightning conductors, EGCs, motor frames, signal grounds and cabinets by connecting to a ground bus or lug and contacting the component under test at any point on the system.

The Model CA 6011 can activate an **audible alarm, vibrate** or both when a low resistance range is measured, ensuring the operator a conductive path exists between the two paths.

FEATURES

- **Comfortable, lightweight wrist-worn** instrument for hands-free use
- **Lead compensation** for more accurate measurements
- **200 mA** test current with automatic polarity reversal
- **Constant operation** – continuously measures – no need to press a button to start or stop a test.
- **Audible and vibration** alarm settings
- **Checks connections** over long distances
- **Commissioning or troubleshooting** bonded non-current carrying conductive paths to earth
- **Compatible** with AEMC Instruments ground testing accessories (works with our reel kits)
- **300 V CAT IV** safety rating

APPLICATIONS

- Lightning protection
- Data centers
- Solar/renewable energy
- Utilities
- Swimming pool grounds
- Traffic Management
- MSHA
- Hazmat materials

ORDERING INFORMATION

[Cat. #2135.62 – Model CA 6011](#) [List Price: \\$460.00](#)

Point-to-Point Continuity Tester Model CA 6011 Includes Meter w/wrist strap, (4) AA batteries, safety sheet and User Manual.

[Cat. #2135.63 – Model CA 6011 Kit](#) [List Price: \\$770.00](#)

Point-to-Point Continuity Testing Kit Model CA 6011 Includes Meter w/ wrist strap, (4) AA batteries, (1) 5 ft red lead, (1) 5 ft black lead, (1) black test probe, (1) 150 ft red lead on spool, (1) Continuity probe set, safety sheet, user manual & Sm. tool bag.

ACCESSORIES

[Cat. #5000.97 – Black Test Probe](#) [List Price: \\$9.40](#)

[Cat. #5000.04 – Red \(150 ft\) Wire on Reel](#) [List Price: \\$157.00](#)

REPLACEMENTS: WWW.AEMC.COM

Due to recent tariff adjustments, product prices may be affected, and some surcharges may not yet be included in the prices shown.
