

Fluke SmartTrace™ 2082 Series Underground Utilities Locator

The safest and most connected way to locate underground utilities.

Trace it, map it, trust it.

Accurately locate, trace, and document buried electrical lines, communication cables, and other underground utilities—reducing costly strikes and improving safety, visibility, and documentation. Built for rugged environments, the SmartTrace™ 2082 Series combines industry-leading electrical safety, PointMan® geolocation integration, and ready-to-work kits designed for technicians, linemen, and contractors.

Integrated Mapping with PointMan®

With the Bluetooth® enabled Receiver, connect wirelessly to the PointMan® app to capture GPS coordinates and utility data instantly—no manual data entry. Export to major GIS systems such as Esri® and Trimble® for digital recordkeeping and compliance.
